Announcement

Subject: Shipment and Production will be delayed due to New Coronavirus Outbreak

The 2019-nCoV has been spreading in China and has now reached multiple other countries; many people have died or have been infected. China's National Health Commission has confirmed this new coronavirus can be transmitted from person to person even from people without any symptoms. Concerns about potential infection threat, many local governments requested factories and companies have to postpone their re-open plan.

We are sorry to inform customers that our factory in Dongguan, China has received instruction have to postpone reopening schedule to February 17th, 2020. As to our Jiang-Shu factory, it reopened as planned schedule on February 10th, but there are strict restrictions on transportation in China from town to town or city to city for the movement of workers and goods. Therefore, our factories don't have enough workers to manufacture products and we also face another serious problem of face mask shortage since the government required all workers must wear mask for preventing from mass gatherings infection risk. Many cities has been placed on lockdown by authorities in an attempt to stop the spread of coronavirus outbreak threat, this situation already affected our material supply chain and logistics; most of logistic companies and supply chain companies have not reopened yet so far, we cannot arrange shipment accordingly.

Winstar Co. must obey the instruction for assisting to control the epidemic, we are sorry but this is not what we can expect in advance. Please note all the open orders shipping dates/lead-time in February, March even April will be affected. We will try our greatest effort to recover the production capacity and shipping arrangement as soon as we can. We'd appreciate your understanding for the above captioned issue. For more detailed information, please contact our sales persons directly.

Best regards,
